RE: City Superintendent of Schools Need Not Be Bonded

I have searched and cannot find any law in the State of North Dakota requiring a city superintendent of schools to be bonded. It is therefore my opinion that a city superintendent of schools is not a "public employee, who is required by any law of this state to be bonded" as defined in section 26-2301, N.D.R.C. 1943.

Unless further good reason is shown why city school superintendents should be bonded, I recommend that such bonds be denied.

ELMO T. CHRISTIANSON

Attorney General
